CONSTRUCTION PROJECTS' GAME CHANGERS

How Predictive Project Management Will Revolutionize the Construction Industry

THE CHALLENGES FACED BY CONSTRUCTION PROJECTS
### COSTLY SETBACKS REVEALED

$127M WASTED every year for every $1B spent

85% of construction projects incur COST OVERRUNS

75% of construction projects EXPERIENCE DELAYS by an average of 20

57% of construction projects FAIL due to insufficient transparency

WHAT'S THE WAY AHEAD?
THE NEED FOR AN ADVANCED WARNING SYSTEM

FORESEE ISSUES, ENSURE PROJECT SUCCESS

" What if there was a way to foresee and mitigate project challenges before they disrupt your timelines and budgets? Imagine having the power to predict issues and take proactive measures to ensure project success. "

THE SOLUTION
TRANSFORMING CONSTRUCTION PROJECTS

The capability your projects need is now a reality. Introducing **TrueProject** and **JobPlanner** – two powerful solutions that integrate seamlessly to transform the way you manage construction projects.

TrueProject is a KPI-based predictive project management SaaS solution that improves project health and performance. TrueProject uses advanced warning, predictive intelligence, and AI to identify potential project issues before they become critical.

JobPlanner is a construction project management software, offering a comprehensive suite of tools designed to streamline and optimize the project planning, execution, and bidding process.

WHAT DOES THE SOLUTION DELIVER?
INTEGRATED OFFERING TO MAXIMISE CONSTRUCTION PROJECT SUCCESS

Comprehensive Project Management
Keep your project on track. Manage daily tasks, RFIs, submittals, and access to critical documents.

Detailed Job Costing
Take control of your project finances with tools designed for job costing, contracts, invoices, budgets, and change orders.

Streamlined Preconstruction Processes
Preconstruction tools for preparation, qualifications, and bids.

Stakeholder Feedback
From Assessments

Project Hard Data
From Existing Systems

Collect Hard Data & Stakeholder Feedback
Confirm Best-Practice Compliance
Identify Off-Track Activities
Predict Project Risks
Derive Integrated Insights
Guidance Recommendations

AI & Analytics
Proven Project Best-Practices, KPIs, & Analytic Processes

Predictive Intelligence Hub
This offering serves as the epicenter of your project's universe, offering a holistic view of your construction landscape.

PM Health Dashboard
Know exactly what owners and GC's need to avoid surprises and 'status spin'. Transform how you see and use project data.

Unmatched Data Integrity
AI-based insights from comined stakeholder feedback and project hard data. Make informed, precise, and timely decisions.
