

ANTICIPATE PROJECT RISKS—BEFORE THEY BECOME COSTLY

(weeks or even months in advance)

TrueProject is a SaaS-based *Strategic Project Intelligence* solution powered by **predictive AI** that foresees project risks weeks or even months in advance. By continuously analyzing project data and stakeholder input against key performance indicators, it delivers **clear, actionable insights**—empowering leadership to act decisively from any dashboard before problems ever surface.

GAIN VISIBILITY & CONTROL WITH EARLY RISK FORESIGHT

- Converts project data and stakeholder input into **AI-powered foresight**
- Reveals real-time project health and execution status clearly
- Add execution consistency across complex project delivery environments
- Provides early risk alerts on initiatives needing management focus
- Strengthens leadership confidence amid delivery uncertainty
- Maintains continuous oversight with **AI-enabled forward-looking risk signals**

Don't let unexpected setbacks derail the success of your projects.
Protect your organization from troubled project and failure issues with TrueProject.

ACHIEVE SUCCESS WITH PROACTIVE PROJECT GOVERNANCE

PROACTIVE

TrueProject establishes a quantitative, **AI-enabled approach** to project governance and risk management throughout the delivery lifecycle. It provides a cost-effective, out-of-the-box capability that adapts easily as organizational needs evolve and scale.

BEST PRACTICES

Robust project management practices are essential to meet growing business demands. TrueProject applies predictive intelligence to surface risk early, reinforce best practices, and provide clear dashboards that support progress tracking and informed decision-making.

FLEXIBLE & RELIABLE

TrueProject is a flexible, reliable solution that uses historical data and **AI-driven signals** to anticipate issues before they escalate. It integrates seamlessly with existing scheduling systems to support efficient, continuous project reviews.

STAY AHEAD OF FAILURES WITH PREDICTIVE PRECISION

Safeguard your organization from troubled projects and delivery failures with TrueProject. Guided by its *Strategic Project Intelligence* (SPI) framework, this **AI-powered SaaS solution** enables proactive project oversight and early risk identification—helping leaders reduce failure exposure, control costs, and gain clearer management insight before issues escalate.

With TrueProject, you can:

Leverage historical data and metrics for **AI-enabled project reviews**

Prepare status evaluations efficiently using **intelligence-ready operational data**

Apply effective project control aligned to **execution signals**

Compare **project performance** against internal and industry benchmarks

CRITICAL ANALYSIS

TrueProject’s intuitive interface enables teams to analyze delivery risk and respond to emerging issues early. Multi-layered intelligence views, dashboards, and reports deliver decision-ready insight across every level of the organization.
