

We Oversee Your Projects— Simple as 1, 2, 3

You focus on running your business, and we'll ensure your projects stay on track, within budget, and avoid risk. Without needing to subscribe to additional software, we use TrueProject's **AI-driven Strategic Project Intelligence (SPI)** to provide continuous oversight across your project portfolio.

How It Works:

Select Five Projects

Select up to five critical projects that matter most to your success and business priorities.

Put Us in Touch with Your PMs

We'll connect with your project leads to capture key project data, behavioral signals, & team sentiment.

We'll Do the Rest

We provide project oversight and **AI-powered analysis**, delivering clear, prescriptive guidance.

The Value You Receive:

Reduced Project Risk

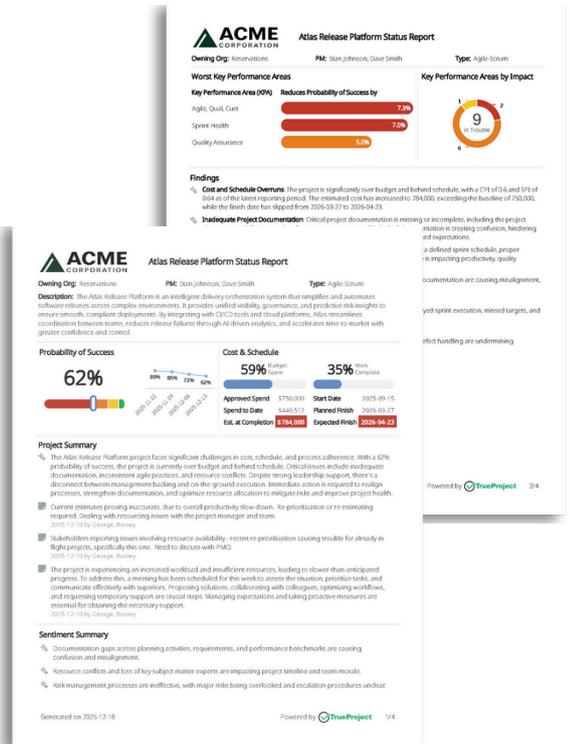

With continuous, **AI-driven project monitoring**, TrueProject's SPI identifies risks before they escalate, saving you time, money, and potential project failures.

Improved Decision-Making

Our reports provide the **AI-recommended project insights** you need to make informed decisions that keep projects on track, even in complex environments.

Time Savings for Your Team

Free up your team from manually tracking and reporting project progress. TrueProject's SPI automates analysis and insight, so your team can focus on delivery.

TrueProject Insight as a Service is a managed service that uses TrueProject's core capabilities to deliver **AI-driven oversight** across your projects. By combining predictive intelligence, real-time analytics, and advanced warning signals, the service helps identify potential issues early before they impact outcomes. Continuous monitoring of key performance indicators (KPIs) ensures projects stay on track, within budget, and aligned with strategic business goals, driving stronger project health and performance.

Included Are:

Weekly Assessments for Teams

Your teams receive personalized, project-specific **AI-driven assessments** to keep everyone aligned and ensure all project goals are being met.

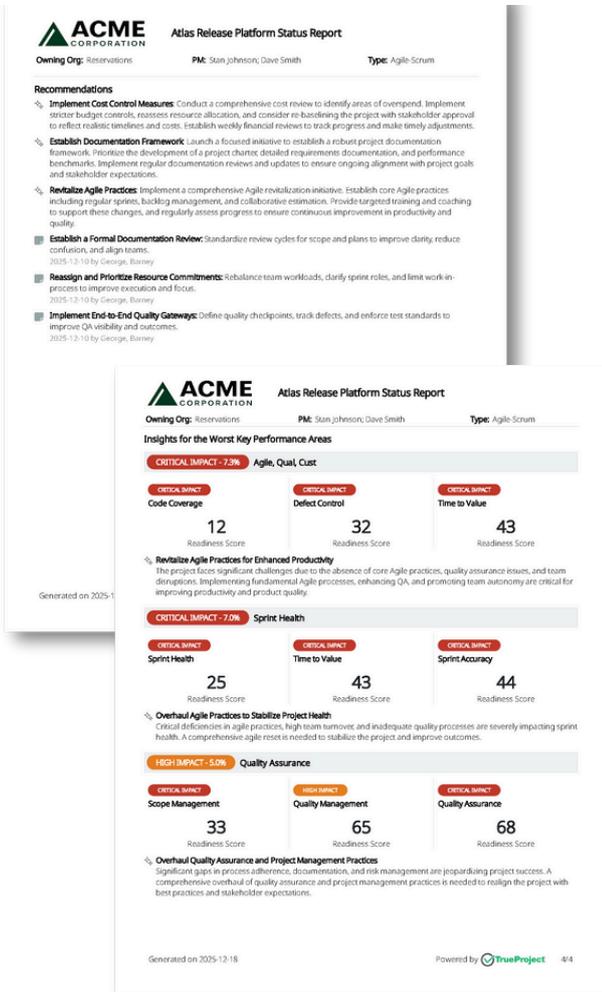

Weekly Guidance for PMs

Your project managers receive weekly, **AI-recommended guidance**, including actionable insights and early risk alerts based on real-time data from your projects.

Executive Reports and Insights

You will receive comprehensive, **AI-powered insights** on your projects, including risks, project health, and key metrics that matter.

Your Projects, Independent Oversight. Fewer Surprises. More Success.
